annual meeting, 558
theses available for reading on constituent society programs, 949

American—Cont'd

- Dental Association, history, 952
honorary degrees conferred on A.D.A. officials, 642
- Anchorage, mandibular; science, philosophy, and art of orthodontic practice, 847
- Appliance, Universal, Erikson's technique with, extractions indicated, 261
- Arch length deficiency in mixed dentition, 464
- Arkansas State Board of Health, Dr. W. R. Alstadt named to, 884

B

- Baker, Henry Albert (orthodontic profile), 940
- Bell, Brooks, installed as president of Texas group, 562
- Berkey, Hugh T., honored by Indiana State Dental Association, 562
- Bimaxillary protrusions, treatment of, according to Tweed teachings, 727
- Bolton, Charles B., letter from, 884
- Bone, biochemistry and physiology, 560 (B. rev.)
changes in mineral content of, in vivo, quantitative roentgenologic studies, 801 (B. rev.)
patterns, alveolar, radiographic study, 66 (Abst.)
stress and strain in: their relation to fractures and osteogenesis, 799 (B. rev.)
- British Society for the Study of Orthodontics, 320
jubilee meeting, 723

C

- Canines, primary, premature removal of; arch length deficiency in mixed dentition, 464
- Case reports, 245
- Castrative significance of tooth extraction, unconscious, 716 (Abst.)
- Cathroe, James S., new assistant for dental services, 400
- Central Section of American Association of Orthodontists, 719, 882, 950
president's address, 243
- Cephalometric analysis of facial and pharyngeal structures in cleft and non-cleft palate children, 391 (Abst.)

Cephalometric—Cont'd

- evaluation, analysis of normal cases and Class II, Division 1 cases by, 147 (Abst.)
- and histologic study of effect of orthodontic expansion of midpalatal suture of cat, 187
- radiographic study of position of hyoid bone in relation to mandible in certain functional positions, 308 (Abst.)
- roentgenography of infants: sedation, instrumentation, and research, 159
- study of occlusion found in permanent dentition of prematurely born children, 146 (Abst.)
- technique, roentgenographic, implementation of, 906
- validation of, 933
- Cephalometry; first Roentgenographic Cephalometric Workshop, 899, 901, 906, 933
- roentgenographic, diagnosis and treatment planning via, 433
- Cervical traction, centric and eccentric, mechanics of, 346
- Chewing gums of varying toughness, quantitative analysis of electromyogram in masticating, 149 (Abst.)
- Child as whole and dental development, 565
- Childhood, relation of nasal and subnasal components of facial height in, 285
- Children, dental malocclusions in, objective survey, 943 (Abst.)
- and infants, anomalies, 874 (B. rev.)
- treatment of mandibular fractures in, orthodontics as aid in, and in mandibular prognathism, 358
- Chin, osseous, changes in profile of, during childhood, 799 (Abst.)
- Class II, Division 1 cases and normal cases, analysis of, by cephalometric evaluation, 147 (Abst.)
- Cleft lip and cleft palate; cephalometric roentgenography of infants, 176
- and non-cleft palate children, cephalometric analysis of facial and pharyngeal structures in, 391 (Abst.)
- palate patient, orthodontic treatment for, 750
- Collagenous fibers, supra-alveolar, preliminary macroscopic observations concerning potentiality of, in orthodontics, 485
- Congress of Stomatologists of Yugoslavia, second, 482
- Cranial base, human, growth of, 498
- Craniopagus twins; cephalometric roentgenography of infants, 176
- Craniosynostosis; cephalometric roentgenography of infants, 171

Crozat appliance; science, philosophy, and art of orthodontic practice, 851

D

- Dallas County Dental Society, Brooks Bell installed as president, 562
- Dental development and child as whole, 565
- malocclusions in children, objective survey, 943 (Abst.)
- radiography, radiation hazards, 302 (Abst.)
- specialties, responsibilities of, 220
- Dentists, effect of new income tax regulations on, 876 (Abst.)
- Dentition, Aleut: correlative study of dental characteristics in Eskimo people, 480 (B. rev.)
- mixed, arch length deficiency in, 464
- Denture and facial skeletal pattern of white identical twins, comparative study of, 148 (Abst.)
- Denver Summer Seminar, 482, 562
- Diagnosis and treatment planning via roentgenographic cephalometry, 433
- Diaphragmatic reduction, effects on gonadal dose in orthodontic roentgen examinations, 676
- Dimensional growth, 99
- Dunn, Robert (orthodontic profile), 59

E

- Ectodermal dysplasia with complete anodontia; cephalometric roentgenography of infants, 183
- Education of orthodontist, 648
- Electromyogram, quantitative analysis of, in masticating chewing gums of varying toughness, 149 (Abst.)
- Electromyographic analysis, quantitative, of mastication, 230, 307 (Abst.)
- Encephalocele, nasal; cephalometric roentgenography of infants, 174
- Environmental factors in malocclusion; extrinsic factors, 30
- Equilibration, occlusal, study of, as it relates to orthodontics, 575
- Erikson's technique with Universal appliance, extractions indicated, 261
- Eruption of certain human teeth, photographic method of measuring, 590
- Estate, state of your, 827
- Esthetics and treatment, influence of lower incisor on, 112
- European Organization for Research on Fluorine and Dental Caries Prevention, 157
- Extraction; case reports, 245
- Erikson's technique with Universal appliance, 261
- tooth, unconscious castrative significance of, 716 (Abst.)
- Extrinsic factors in malocclusion, 26

F

- Facial growth, analysis of. I. Anteroposterior and vertical dimensions, 507
 II. Horizontal and vertical dimensions, 585
 height, relation of nasal and subnasal components of, in childhood, 285
 musculature, twitching of, 479 (Abst.)
 and pharyngeal structures in cleft and non-cleft palate children, cephalometric analysis, 391 (Abst.)
 skeletal and denture pattern of white identical twins, comparative study, 148 (Abst.)
 Fluoride research, Fred McKay honored for, 643, 954
 Fractures, mandibular, in children, orthodontics as aid in treatment and in mandibular prognathism, 358

G

- Genetic influence on malocclusion, review of, 81
 Georgetown University, 954
 German Congress in Kieferorthopädie, 724
 Golden Anniversary Luncheon, American Association of Orthodontists, 611
 Gonadal dose in orthodontic roentgen examinations, effects of diaphragmatic reduction, 676

 Growth and development of Negro infants. VIII. Comparison of deciduous dentition in Negro and white infants, 875 (Abst.)
 dimensional, 99
 facial, analysis of. I. Anteroposterior and vertical dimensions, 507
 II. Horizontal and vertical dimensions, 585
 and growth data, meaningful interpretation of, by clinician, 411
 of human cranial base, 498

H

- Hand and wrist, skeletal maturation, bilateral asymmetry in, 638 (Abst.)
 Hellman, Milo, Research Award, American Association of Orthodontists, 1958, 68
 1959, 880, 946
 Hereditary predisposition to malocclusion; extrinsic factors, 26
 Hillenbrand, Dr. Harold, honored by Loyola University, 643
 Hoffman, Dr. Abram, death of, 399

- Hyoid bone, position of, in relation to mandible in certain functional positions, cephalometric radiographic study of, 308 (Abst.)

I

- Illusory phenomena of importance in orthodontics, 46
 In memoriam, Harry Elias Abelson, 636
 Joseph O. Baker, 227
